

Re-heat Temperatures for

Keep for 3 months

TO BE DONE FOR ANY FOODS THAT ARE COOKED OR RE-HEAT FOR THE CHILDREN

- *Wipe the probe with an anti-bac wipe.*
- *Insert the probe so that the tip is in the center of the food or the thickest part.*
- *Check that the temperature is at least 75°C for at least 30 seconds.*
- *Initials to be in capitals and not a signature.*

Date	Dish	Temperature	Initials
